D

82. (twice amended) An *in vitro* composition comprising an enriched and expanded population of proliferating dendritic cell precursors.

03

84. (amended) The composition of dendritic cell precursors according to either one of claim 82 or 101 wherein the dendritic cell precursors are human.

C!

89. (amended) The composition according to claim 101 wherein the antigen is a microorganism.

Py

94. (amended) The composition according to claim 101 wherein the antigen is a mycobacteria tuberculosis bacteria.

D

96. (twice amended) A pharmaceutical composition comprising a therapeutic amount of an enriched and expanded population of human proliferating dendritic cell precursors and a pharmaceutically acceptable carrier.

P

101. (amended) An *in vitro* composition comprising an enriched and expanded population of processed antigen presenting dendritic cell precursors, wherein said dendritic cell precursors present processed antigen derived from said dendritic cell precursors contacted *in vitro*, in the presence of GM-CSF, with antigen for sufficient time for said dendritic cell precursors to process and present said processed antigen.
